“It has been very interesting to have this opportunity to play this football game using the attributes and features of the most realistic physical models in the world: player models. The result has shown that we were able to learn something from their movements, their on-field behaviour, and deliver a game which plays more like real football on the pitch,” said FIFA gameplay director Emilien Cocard. New interactive player models, such as the ‘Tackle Scoring’, provide information on how to best use the new features that have been introduced to the ball. The animation system uses the data from player models to give more life to players, allowing them to make more realistic decisions and more detailed actions, and FIFA 22 also features an improved animation system, allowing players to perform more accurate and detailed animations. Pro Evolution Soccer 2016 offers a variety of new gameplay features, including a return to its roots, a new brand of ball control, streamlined player positioning and an improved player likeness. The traditional and intuitive dribbling feature has been reintroduced – players can now move around the pitch and use their skill and strength to test their opposing defenders. Players can also use the dribble to create space for other attacking players and create an opportunity to shoot. Player positioning is also improved, with PES 2016 featuring a new design that gives players a natural feeling of ‘following’ teammates around the pitch. The player movements are also more realistic, which means that players can perform more natural actions and make less obvious choices. PRO-KOMBAT 2.0 A brand new version of Konami’s popular fighting game series Pro-Kombat 2.0 is now available on iOS. Pro-Kombat 2.0 brings the arcade rules of full-blown combat mixed with a new set of rules for analyzing attacks, control to counter special moves and more to this deadly and diverse roster. Pro-Kombat 2.0 will be available at a discounted price of £4.99 from June 7 to July 6. [PR] New covers featuring FC Barcelona and Greece’s superstar Dimitris Salpingidis Two brand new official covers for PES 2016 have been unveiled, as the iconic football club FC Barcelona and the sport’s latest superstar, Dimitris Salpingidis. Featuring these superstar players celebrating their greatest moments on the
